

Teepee

Tomako introduces the **Teepee Range** consisting of the **Teepee 4 Leg**, a table system to suit round and square meeting tables, and **Teepee Multi Leg** a table system to suit rectangular, oval, d-end etc. boardroom & meeting tables of endless length!

The **Teepee 4 Leg** supports tables up to 1600mm Ø & 1200mm square.

The **Teepee Multi Leg** system supports tables up to 1600mm wide, and of endless length.

The **Teepee Multi Leg** system starts with a twin leg, and can be added to endlessly by adding a single leg support and a bolt-on top frame extension. This can also be done at a later stage, so tables can be reconfigured at a very low cost.
